Interim directors' report

The directors present their report in terms of Chapter 5 of the Listing Rules issued by The Listing Authority, and in terms of the Prevention of Financial Markets Abuse Act 2005. The underlying accounting policies are the same as those adopted by Virtu Finance p.l.c. (the 'Company') in its published annual report for the year ended 31 December 2022. The interim financial information included in this report has been extracted from the Company's unaudited accounts for the six months ended 30 June 2023 which have been prepared in accordance with IAS 34 'Interim Financial Reporting'.

Principal activities

Virtu Finance plc (the "Company") is a public liability company and was registered in Malta on 6 July 2017. The Company is a wholly owned subsidiary of Virtu Holdings Ltd and its principal activity is to raise financial resources from capital markets to finance operations and capital projects of the Virtu Group of companies.

Review of the business

During the period under review, the Company registered a gross profit amounting to €50,107 (2022: €55,135). Revenue amounting to €549,100 (2022: €549,100) is generated from a facility fee and interest charged on loans advanced to Virtu Maritime Limited. Financial costs comprise interest payable on the outstanding bond issue and amortisation of the issue costs thereof amounting to €498,993 (2022: €493,965). Administrative expenses mainly comprise directors' emoluments amounting to €22,500 (2022: €22,500).

Principal risks and uncertainties for the remaining six months of the financial year

The Company's principal activity is to act as a finance company for the Virtu Maritime Group of companies (the "Group"). In this context, the Company's ability to recover loans issued to its fellow subsidiary is dependent on the performance of the companies within the Group to which amounts have been advanced by the Company.

The Group's business activities mostly comprise a fast ferry service between Malta and Sicily, the availability for lease of its ferries, and other ancillary services related to the fast ferry service. The Group is therefore susceptible to negative local economic developments and overseas trends related to the demand for commercial transport and tourists to travel by ferry.

As reported in the 2022 audited financial statements of the Company, despite the effects of the Ukraine war the directors do not expect any significant changes in the Company's activities during 2023 and are confident that the Company will be able to honour its obligations when they fall due. The directors concur with the going concern assumption for preparation of these interim financial statements and do not envisage any material uncertainty in this regard.
